TESTIMONIALS

The guys with MSTv Produc were very professional. They worked well with the needs of the venue and were very disarming when it came to the interviews. The final result was superbly produced and has become an important part of my press kit. Cannot say enough about them!

----- Lilli Lewis (National recording artist)

Kent and his team were very easy to work with. I used MSTv to do a review of Capital City Grill Downtown. The host was able to ask the right questions and the camera guy did a great job of capturing the space with the right lighting and background. I will definitely use them again to showcase our restaurant and anything else we may have going on

----- Y'Zell Williamson (Marketing dir Mestizo's restaurant)

Loved our experience with MySceneTV. The staff made us feel at ease during our interview. Very responsive to messages and they created a nice slick presentation.

----- Ole A. Oddløyken (Manager - NOLA band NoiseWater)
